INDEX.

Abbey Hospital, Paisley, 1402
Abbott, Mr. C. E., an outbreak of small-pox at Cressing, 437, 517; influenza, double attack, 851
Abdomen, topographical anatomy of the, 352
Abdominal aorta, bullet wound of the, in which the bullet remained within the lumen of that vessel, 890
——— cyst, unilocular, of large size, apparently ovarian, laparotomy, cure, 1121
——— distension of typhoid fever, its dangers and treatment, 536
——— organs, the utility of massage in the treatment of diseases of some of the, 398
——— section, cases of, 1014; the importance of washing out the peritoneal cavity as a means of securing a natural disposition of the intestines after, 75; in women, a series of eighty-four cases of, 696
——— surgery, address on the present position of, 835, 858, 904; in Cuba, 765
——— swelling, 1303
Abel, Mr. J., School Hygiene (review), 1304

ABERDEEN CORRESPONDENCE.—Health of the city, 439, 623, 940, 990—Air space in lodging houses, 439—The University, 623, 940—Hospital for Sick Children, 623 — Aberdeen General Dispensary, ib.—Graduation ceremony at Marischal College, 826 — Medical jurisprudence and public health, 826—The University Court, 826, 990—The Royal Infirmary, 940, 990—University legislation, 940—Unwholesome food, ib.

Aberdeen General Dispensary, the, 523
——— University, and the "fifth year," 1365; a want in, 1436
Abingdon Cottage Hospital, report of, 1158
Abortion, 197; the Gariel air-ball pessary as a plug in, 749; prevention of, 860
Abraham, Dr. P. S., on cases of leprosy, 136; the influenza epidemic, 216; report on leprosy in the Australian colonies, 1143; the national leprosy fund, 1208
Abscess, cold, iodoform emulsion in, 1142
Accrington urban district, health of, 160
Acetanilide, effects of a very large dose of, 816
Acland, Dr. T., on case of symmetrical trophic lesion of the nails, 652
Acne, post-graduate lecture on, 338, 446; spud, an, 707; sycosis, a localised epidemic of, traceable to a barber's shop, 346
Actinomycosis, primary, of the apex of the lung, 39; attacking the brain, 1081
Adam, Dr. J., a few remarks upon some more important changes which will be effected by the Lunacy Acts Amendment Act (1889), 126
Adams, Mr. Jas. E., obituary notice of, 275
———, Mr. John, on Cheyne-Stokes respiration, 674
———, Mr. W., on treatment of Dupuytren's finger contraction, 705
Adamson, Dr. J. G., obituary notice of, 1402
Addison's disease, 1182; without pigmentation, case of, 960
Advertising practitioners, 64
Afferent fibres for taste, the course of the, 418
Africa and the liquor traffic, 768
African kola nut, 1030
After-care Association, 1402, 1453
Agaricinic acid, 818
Ague accompanied by choreiform spasm, 16
Aire, the pollution of the, 1189
Alasco wines, 28
Albuminous urine independent of kidney disease, 540
Albuminuria, as a result of the morphia habit, 1133, 1273; and life assurance, 846, 937, 987, 1091
Alcohol, medical declarations respecting, 312; reduced consumption of, in hospitals, 561, 668, 682; the effect of, on the function of the stomach in healthy people, 711; as a medicine, 1396; and childhood, 1321, 1364
Alcoholic paralysis, cases of, 469, 649
Alcoholism, increased, 361; the hereditary consequences of, 678; the treatment of, 713; the treatment of, by strychnine, 980; influenza and, 92
Alderson, Dr. F. H., treatment of placenta prævia, 1126
Allen, Mr. C. B., fatal poisoning by carbolic acid, 631
———, Professor, presentation to, 276
Allingham, Mr. H. W., on strangulated hernia in a woman aged eighty, herniotomy necessitating abdominal section, recovery, 401; operation on fistula in phthisis, 546; on the Treatment of Internal Derangements of the Knee-joint by Operation (review), 706; on case of acute abdominal obstruction, 752
Alpine season, the, 1316
Alston, Dr. W. E., on case of rheumatic fever, 191
Althaus, Dr. J., on neuritis in diabetes, 455, 621
Alum enemata in dysentery, 78
Alvarenga prize, the, 466
Amadou, official trial of, in the treatment of carcinoma, 364
Ambulance station, a new, 221
Amenorrhœa from mental shock and with mental depression, 1019
American aloe in hydrophobia, 312
——— and British physicians in Vienna, 479
——— Association of Obstetricians and Gynæcologists, Transactions of the, for 1889 (review), 863
——— Gynæcological Society, Transactions of the, for 1889 (review), 808
——— Ophthalmological Society, Transactions of the (review), 656
——— Medico-Legal Congress, 1453
——— Physicians, the Association of, Transactions of (review), 863, 1312
——— quackery by a regular physician, 871
——— Surgical Association, 1313
Ammonium chloride and other vapours, a new instrument for the inhalation of, 87
Amœbæ in dysentery, 1251
Amputation, analysis of four hundred cases of, 1303
Amyot, Mr. T. E., on chess, 949
Anæmia, pernicious, the urine in, 90; a case of, 287, 805
Anæsthesia, local, 1314
Anæsthetics, the relative safety of, 316, 372, 434, 774, 823; experiments on, at Hyderabad, 349; discussion on, at the Medical Society, 358; THE LANCET inquiry into the mortality under, 611; deaths under, 979; choice of, 1000, 1051

ANALYTICAL RECORDS.—Vin névrosthénique (phosphates of quinine and lime with coca), 27—Vichy (St. Louis) mineral water, ib.—Levicomatürliches arsen-eisenwasser; starkes und schwaches, ib.—Senn's table delicacies: potted foie gras, devilled tongue, sardine paste, hygienic caviare, 28—Distil coffee extract, ib.—Micasene toilet soap, ib.—Alasco wines, ib.—Danvita bitters, ib.—Finest old Scotch whisky, ib.—Medicated wools, 410—Riley's temperance pale ale, non-intoxicating, sparkling, ib.—Health-guard, 411—Stern's pumiline preparations, ib.—Cox's hygienic cocoa extract, ib.—Valentine's preparation of meat juice, ib.—Thurbers' cerealine flakes, ib.—Dahl, or indian lentil revalenta food, ib.—Lanoline toilet soap, ib.—Ichthyol-lanoline soap, containing 10 per cent. ichthyol, ib.—Golden gin, ib.—Joseph Mack's Austrian pine products (pinus pumilio), 809—Vin de Baudon (antimonio-phosphate), ib.—Frozen beef-tea, ib.—Frosen cream beef-tea, ib.—Kiloh's old Irish reindeer whisky, ib.—Sparkling aromatic quinine water, ib.—Soluble sanitas oil, miscible with water, oils, petroleum, fats, and waxes, ib.—Ginger ale, Diamond Company brand, ib.—Benger's peptonised beef and chicken jellies, ib.—Planckaert's champagne, 1023—Beef and iron wine, ib.—Caswell, Massey, and Co.'s quinine chocolates, ib.—Bynol, perfected malt and oil, ib.—Pepsalia: digestive table salt, ib.—Vinolia soap, ib.—Lodges' dietetic tea, ib.

Analytical Tables, coloured, a Class-book for Students (review), 27
Anatomical demonstrations, the lantern as an aid to, 1020
——— Society of Great Britain and Ireland, 830
Ancient Egyptian bones, periostitis and atrophy of, 404
Anderson, Mr. A. R., supra-pubic lithotomy with suture of the bladder, 898
———, Mr. W., on ruptured popliteal aneurysm, 22
Andrew, Dr., on hæmorrhagic varicella, 133
Andrews, Dr. J. H., death of, 1450
Aneurysm, clinical lecture on, 227; traumatic, and the back, 132; ligature of carotid for, 651
——— of the lower extremities, 852; electro-puncture for, 881
——— of the aorta, the diagnosis and treatment of, 4
——— of the carotid, 705
——— popliteal, 654; digital compression for 184 hours, recovery, 963; ruptured, 22
——— subclavian, ligature of innominate and carotid, death, 1352
Aneurysmal dilatation involving the aorta, the innominate, and the right common carotid arteries, 22
Angina pectoris in the heart, palsy of acute specific infective disease, 549
Animals' Institute, the, 1453
Ankle-joint, compound luxations of the, 83; and astragalus, excision of the, 806
Anklylostomiasis, 259; and beri-beri, 435
Antal, Professor Géza, of Buda Pesth, 59
Anthrax, 22
Anthropometry and the identification of criminals, 946, 975
Antifebrin, not a safe remedy, 376; cases of poisoning by, 575, 1136
Antipyrin, in dysmenorrhœa, 77; and the prevailing epidemic, 105
Antisepsin or paramonobrom-acetanilid, 1266
Antiseptic dressing, the new, 89
——— syringing, 1390
Antiseptics, midwives and, 379; the use of, in the treatment of stricture of the urethra by internal urethrotomy, 1295
Anti-vivisectionists, of Leicester and the Royal Commission, 485; of Guildford, 768
Anuria, recovery after a week's total, 481
Aorta, aneurysm of the, the diagnosis and treatment of, 4
Aortic aneurysms, sacculated, 855
——— diastolic murmur, case of, 651
Aphasic and amnesic defects of speech, 1163
Apoplexy, the treatment of, 723
Apostoli, Dr., the action of the positive pole of the constant galvanic current upon the bacteria of charbon, 1120
Apothecaries, uncertificated, 711; the Society of, of London, 680, 1093, 1161, 1275, 1407
——— Act, actions for penalties under the, 1100
Apothecary, fine for illegally acting as an, 1365
Appeals, 1051
Archives de Neurologie (review), 1304
Aristol, a substitute for iodoform, 565
Arm, amputation of, for senile gangrene, recovery, 466
Arm-presentation, spontaneous version in, 1239
Armstrong, Mr. H., hospitals for infectious diseases, 969

Army, tuberculosis in the, 575; estimates, 720
——— Medical School, Netley, 315
——— Medical Service, 558, 1362, 1447; a new warrant, 92; Surgeon Parke and the, 1089; annual dinner of the, 1397; and Indian Medical Service, 525
Arnold, Dr. F., death of, 261
Arsenic, case of chronic nasal and pharyngeal catarrh, apparently caused by using a hair wash containing, 595
Arsenical poisoning, cases of, 483, 1190
Arterial with venous blood, comparison of, 1029
——— wounds, the suture of, 415
Arteries, ligature of, in epilepsy, 815
Articular cartilage, necrosis and separation of, 544
Asclepiad, the (review), 604
Ashby, Dr. H., The Diseases of Children, Medical and Surgical (review), 301
Ashton urban district, health of, 874
Asiatic Turkey, cholera in, 1317
Asitia, prolonged, 1039
Asphalt or wood, 94
Asthma, 240
Astigmation, case of, 1424
Aston Key Club of Reading, 261
Aston Manor urban district, health of, 672
Athetosis, case of, 652
Atkin, Mr. C., on unilateral ulceration of the neck, 469
Atkinson, Dr. F. P., on the prevention of epidemic disease, 52, 910; on rhythmical movement of the larynx, 333; double dislocation of the shoulders, 385
Atlas, acute necrosis of, 408
——— der Bakterienkunde (review), 250
Atresia of the vagina, its pathology and treatment, 236, 299
Atropine, strange effect of, 63; morphine as an antidote to, 1311
Audacious proposal, an, 999

——, Dr. William, on pernicious anæmia, 805
——, Mr. J. O., influenza or dengue, 1457
Hunterian Lectures on the Morbid Anatomy, Pathology, and Treatment of Hernia (review), 249
Hunting suspender, 1215
Huss, Prof. M., death of, 1035
Hutchinson, Dr. J. H., death of, 208
———, Mr. J., the New Sydenham Society, 100; lecture on aims and methods of a post-graduate course of, 117
———, Mr. J., jun., on Paget's disease of the nipple, 649; on lymphatic nævus of the tongue, 803; on calcifying adenoma of the skin, 856
Huxley, Prof., and the Linnean medal, 1254
Hyalitis, purulent, nine months after successful cataract operation, 653
Hydatid, of lung, 747; of liver, 755, 1303; cyst, retention of urine, case by, 1180
Hydatidiform mole, diagnosis and treatment of, with notes of three cases, 953
Hyde, sanitary improvements in, 250
Hyderabad Chloroform Commission, 139, 149, 515, 877; second report on, 421, 433, 486, 515; (Appendix C), 568, 1149, 1389, 1396; experiments of the, on tight-lacing as a cause of death in chloroform anæsthesia, 662; tracings of experiments, 1370-1388; Glasgow Committee's tracing, 1387
Hydrastinine in uterine hæmorrhage, 712
Hydrocele, some unusual forms of, 893
Hydrochloric acid poisoning, fatal on the ninety-fourth day, 797
Hydrofluoric acid in whooping-cough, 619
Hydrophobia, 359, 663; a case of, death, necropsy, 295; the American aloe in, 312; a collection of cases of, reported as successfully treated, 458, 538, 593; the Lancashire cure for, 980; a note on, 1012; in Paris, 1047; popular remedies for, 1436
Hygiene, International Congress of, 417, 627; of the Nursery (review), 86
Hygroma, congenital cystic, 65
Hymen, imperforate, epilepsy caused by, 1010
Hyoscine, 718
Hyperplasia, 1182
Hypnosis and Gabrielle Bompard, 1278
Hypnotic, chloralamide as a, with special reference to its action in the insane, 339
—— catalepsy, muscular adaptation, 1167; the fundus oculi in, 272
Hypnotism, 549, 912, 987, 999, 1146, 1039; employment of, for physiological investigation, 417; as an anæsthetic during the performance of dental and surgical operations, demonstration of, 771, 941; as an anæsthetic, 937; public exhibitions of, 1133; as a therapeutic agent, 1201; without suggestion in therapeutics, 74
Hypodermic syringe, a new, 354, 1184, 1341
—— syringes, needles of, 783, 833
Hysterectomy, 1243; vaginal, mortality of, 1150, 1205
Hysteria, the simulation of, by organic disease of the nervous system, 283; contraction of the tongue in, 919; following typhoid fever, a case of, 923; nutrition in, 941
Hysterical laryngismus, 705

Ichthyol, indications for the use of, 565; in gynæcology, 1142
Ichthyol-lanoline soap containing 10 per cent. ichthyol, 411
Identity, mistaken, three cases of, 662
Ileum, volvulus of the, 1124
Iliac abscess, note on a case in which the ilium was trephined for, 743
Illinois, views as to quarantine in, 766
Ince, Mr. J., Latin Grammar of Pharmacy (review), 410
Income tax, 447, 526, 887
Incurables, Longmore Hospital for, 1042, 1210; the British Home for, 1101
Indecent advertisements, 763, 979
India, Contagious Diseases Acts in, 256; Enteric Fever in (review), 605, 1241; lepers in, 1047; poisoning in, 1212; summer drinks in, 1366
Indian Medical Service, 177
Indigenous diseases in the North-west territories, 616
Inebriates, home for, 948
Inebriety, Society for the Study of, 113, 729, 780

Lean meat and water diet, 566

LECTURES.

BARR, Dr. J.:—
Clinical Lecture on the Treatment of Typhoid Fever by Prolonged Immersion in Water, delivered at the Northern Hospital, Liverpool, on Nov. 16th, 1889, 583, 633, 690
BASTIAN, Dr. H. C.:—
Post-graduate Lecture (Abstract of a) on some Points in Prognosis and Treatment in Cases of Hemiplegia, 529
Post-graduate Lecture (Abstract of a) on Aphasic and Amnesic Defects of Speech, 1163
BENNETT, Mr. W. H.:—
Clinical Lecture on Congenital Sacculations and Cystic Dilatations of Veins, delivered at St. George's Hospital Medical School, 788
BUZZARD, Dr. T.:—
Address on Vertigo of Bulbar Origin, delivered before the Harveian Society of London at the Annual Meeting, Jan. 16th, 1890, 179
Address (Abstract of an) on the Simulation of Hysteria by Organic Disease of the Nervous System, delivered at the Annual Meeting of the Neurological Society of London, Jan. 23rd, 1890, 283
CROFT, Mr. J.:—
Clinical Lecture on the Present Stage of Surgical Treatment of Tubercular Disease of Joints, delivered at St. Thomas's Hospital, Jan. 14th, 1890, 281
DRUMMOND, Dr. D.:—
Remarks on the Clinical Aspects of Movable Kidney, 66, 119
DUNCAN, Dr. W.:—
Clinical Lecture on Extra-uterine Gestation, delivered at the Middlesex Hospital, 449
FERRIER, Dr. D.:—
Croonian Lectures (the) on Cerebral Localisation, delivered before the Royal College of Physicians of London.
Lecture I., 1225. Lecture II., 1287. Lecture III., 1343. Lecture IV., 1409
HARRIS, Dr. V. D.:—
Lectures on Bronchitis; its Varieties, its Relations to other Diseases, and its Treatment, delivered at the City of London Hospital for Diseases of the Chest, Victoria Park.
Lecture I., 1053. Lecture II., 1110
HEATH, Mr. C.:—
Clinical Lecture on Aneurysm, delivered in University College Hospital on March 11th, 1889, 227
Clinical Lecture on Strangulated Hernia, delivered at University College Hospital, 1107
HUTCHINSON, Mr. J.:—
A Lecture on the Aims and Methods of a Post-graduate Course of Lectures, 117
JACKSON, Dr. J. H.:—
Lumleian Lectures (the) on Convulsive Seizures.
Lecture I., 685. Lecture II., 735. Lecture III., 785
JEAFFRESON, Dr. C. S.:—
Clinical Lecture on Optic Neuritis, 891, 951
LEWERS, Dr. A. H. N.:—
Clinical Lecture (Abstract of a) on the Diagnosis and Treatment of Hydatidiform Mole, with Notes of Three Cases, delivered at the London Hospital, 953
LISTER, Sir J.:—
Remarks on Two Cases of Long-standing Dislocation of both Shoulders treated by Operation; with Further Observations on the Cyanide of Zinc and Mercury, de-

livered before the Hunterian Society on Nov. 27th, 1889, 1

MEREDITH, Mr. W. A.:—
An Address on the Present Position of Abdominal Surgery, delivered before the Medical Society of London, 835

MORGAN, Mr. J. H.:—
Post-graduate Lecture (Abstract of a) on Beginnings of Joint Disease in Children, delivered at the Hospital for Sick Children, Great Ormond-street, 286, 392

OWEN, Mr. E.:—
Lettsomian Lectures (Abstract of the) on Selected Subjects in the Surgery of Infancy and Childhood, delivered at the Medical Society of London on Jan. 6th, 1890.
Lecture I., 65. Lecture II., 181. Lecture III., 285

PAYNE, Dr. J. F.:—
Post-graduate Lecture (Abstract of a) on Acne, delivered at Blackfriars Hospital for Skin Diseases, 338

PITT, Dr. G. N.:—
Gulstonian Lectures (Abstract of the) on some Cerebral Lesions, delivered at the Royal College of Physicians.
Lecture I., 739. Lecture II., 841. Lecture III., 889

POWELL, Dr. R. D.:—
Remarks on the Diagnosis and Treatment of Aneurysm of the Aorta, introduction to a discussion on the subject at the Medical Society of London, Dec. 9th, 1889, 4

RANSOME, Dr. A.:—
Milroy Lectures (Abstract of the) on the Etiology and Prevention of Phthisis, delivered at the Royal College of Physicians.
Lecture I., 531. Lecture II., 586. Lecture III., 635. Lecture IV., 688

SANSOM, Dr. A. E.:—
The Annual Oration of the Medical Society of London, 1890: The Rapid Heart, a Clinical Study, 1001

MEDICAL SOCIETIES.

CARDIFF MEDICAL SOCIETY.—Hydatids of the pelvis, 408—Use of borax in epilepsy, 909
CLINICAL SOCIETY.—Traumatic aneurysm of back; Hæmorrhagic varicella; Desquamation in enteric fever, 132—Sacculated vesical calculi; Calculus impacted in the ureter; Erasion of hip-joint through anterior incision, 243—Exhibition of living specimens; Thrombosis of cerebral sinuses and veins; Trephining for old hemiplegia; Biliary fistulæ, 404—Glandular tumour of tongue; Cheyne-Stokes breathing in granular kidney; Intravenous injection in diabetic coma; Acute universal dermatitis, 545—Exhibition of clinical cases; Abdominal nephrectomy for sarcoma of supra-renal capsule; Laparotomy for ruptured small intestine, 649—Hereditary enlargement of spleen; Double ovariotomy and nephrectomy followed by abscess of lung; Laparotomy for suppurating vermiform appendix, 751—Clinical cases; Hepatic hydatid causing visceral displacement; Diffuse suppurative peritonitis treated by laparotomy, 856—Cystotomy for tubercular ulceration of bladder; Rheumatic pericarditis with delirium; Gastric ulcer; Raynaud's disease without hæmoglobinuria, 965—Living specimens; Ear disease with symptoms suggesting cerebral abscess; Thrombosis of longitudinal sinus; Excision of lower end of rectum for epithelioma, 1072—Retention of urine from a pelvic hydatid cyst; thyroid tumour, apparently malignant, almost disappearing after tracheotomy, and subsequently regrowing as sarcoma; Urethral stricture after electrolysis; Encysted vesical calculi; Lithotrity and supra-pubic lithotomy; Treatment of phthisis by inhalation of super-heated air, 1180
CLINICAL SOCIETY OF MANCHESTER.—Chronic phthisis; Russian influenza, 245—Abdominal swelling; Hydatid cyst of liver; Ovarian tumour, 1303
EPIDEMIOLOGICAL SOCIETY.—Leprosy, 136—Malta fever, 548—Treatment of scarlatina, 754—The recent epidemic of influenza, 1019—Enteric fever in India, 1241
HARVEIAN SOCIETY.—Multiple exostoses; Disintegration of the urinary organs; Surgical sequelæ of fevers, 547—Exhibition of living specimens, 654—General paralysis of the insane, 753—Urethral chancres; Diphtheria; Treatment of placenta prævia; Uterine hæmorrhage after the menopause not depending on malignant growths, 1125—Sequelæ of syphilis; Harelip; Migratory œdema; Hyperplasia; Addison's disease; Osteitis deformans; Osteotomy, 1181
HUNTERIAN SOCIETY.—Papilloma of uvula; Sarcoma of foot; Malformed uterus; Acute necrosis of atlas; Pyæmic abscess of sternum; Cancer of sigmoid flexure, 407—President's address; Tender feet in psoriasis; Glycosuria, 654—Gumma of the heart; Cancer of the liver; Puerperal nephritis; Sebaceous cyst of umbilicus; Hydatid of the liver; Myeloid epulis, 755—Congenital dislocation of both hips; Congenital nystagmus; Rheumatic nodules; Papilloma of larynx; Ectopia testis cruralis, 908—Puerperal fever; Bronchocele; Amenorrhœa from shock; Stricture of œsophagus; Treatment of erysipelas, 1019
LEICESTER MEDICAL SOCIETY.—Cholecystotomy and crushing of impacted gall-stone in cystic duct; Cholecystotomy; Vital force, 84—Ulcer of cornea; Phthisis, with pigmentation of the skin; Keratitis; Nephrotomy, 861
MEDICAL OFFICERS OF SCHOOLS' ASSOCIATION.—The prevailing epidemic and public schools; Care of the teeth in childhood, 247
MEDICAL SOCIETY OF LONDON.—Croupous pneumonia; Nephro-lithotomy; Partial nephrectomy, 133—Tubercular basic cavity; Undescended testicles; Thomsen's disease; Complete epispadias; Removal of internal semilunar cartilage for derangement of knee; Cardiac disease with nervous symptoms; Instrumental indentation of frontal bone, 245—Experiments on anæsthetics at Hyderabad, 349—Discussion on epidemic influenza, 406—Phthisis and psoas abscess; Talipes equino-varus; Ossified scalenus medius; Erb's paralysis; Elephantiasis; Rheumatic nodes; Syphilitic arthritis; Valvular cardiac disease; Lead palsy, 467—Annual meeting; Operation on fistula in phthisis, 546—Presidential address; Paroxysmal hurry of the heart; Treatment of lateral spinal curvature by rachilysis, 600—Ligature of carotid for aneurysm; Inguinal colotomy; Unusual aortic diastolic murmur; Fistula in ano cured without division of sphincters; Athetosis; Hip-joint excision; Syphilitic stenosis of pharynx; Symmetrical

trophic lesions of nails; Plastic operations on face; Electric cystoscopy, 651—Subacute indurative pneumonia; Dupuytren's contraction of the fingers, 704—Removal of pyæmic thrombi from lateral sinus; Pernicious anæmia, 804—Debate on the present position of abdominal surgery, 858—Continuation of the debate on the present position of abdominal surgery, 904—Pyloroctomy, 968

MIDLAND MEDICAL SOCIETY. — Monocular ophthalmoplegia; Necrosis of lower jaw; Nævus treated by collodion; Abortion, 197—Syphilitic epiphysitis; Right hemiplegia and aphemia due to syphilis; Double sessile embedded ovarian cysts; Cyst of broad ligament, 548 — Congenital infantile laryngeal stridor; General paralysis of the insane; Melon-seed bodies from sheath of tendon; Removal of right upper jaw; Specimens, 603—Carotid aneurysm; Tubercular testes; Recurrent palpitation; Chronic phthisis with unusual dislocation of the heart; Hysterical laryngismus, 705—Necrosis of clavicle; Cholecystotomy; Hemiplegia with optic neuritis; Syphilis of lung, 1019

NORTH OF ENGLAND OBSTETRICAL AND GYNÆCOLOGICAL SOCIETY.—Specimens; Diagnosis of gonorrhœal infection in women, 1243

NOTTINGHAM MEDICO-CHIRURGICAL SOCIETY. —Presidential address on heredity in disease; Swine fever; Ruptured popliteal aneurysm; Supra-pubic lithotomy; Lupus of mouth; Parotid tumour; Specimens, 22—A dermoid cyst; Dr. Rentoul's scheme, 300—Prevention of abortion; Epiœmic influenza; Cancer of the lung; Stricture of rectum; Puncture of intestine; Bronchiectasis, 860

OBSTETRICAL SOCIETY.—Should pregnancy be terminated prematurely in cases of phthisis? Five cases of puerperal eclampsia, especially illustrating the temperature and urine in this disease, 134 — Specimens; Urethral diverticula; President's address, 350 — The change in size of the chest and abdomen during the lying-in period and the effect of the binder upon them; Apoplexy of the ovary; Cystic dilatation without rupture, 601—Vaginal hysterectomy, 866, 1073 — Specimens; Spurious pregnancy simulating ectopic congestion; Fever in childbed, 1358

OBSTETRICAL AND GYNÆCOLOGICAL SOCIETY OF GLASGOW.—Two cases of severe vomiting in the later months of pregnancy associated with hemi-albumosuria and diaceturia, 1020

OPHTHALMOLOGICAL SOCIETY.—Glaucoma after extraction of cataract, 299—Primary glaucoma at the age of twenty-two; Spontaneous purulent hyalitis nine months after successful cataract extraction; The metre angle in latent and manifest muscular deviations; Immediate effect of tenotomy on the concomitancy of squint, 652—Corneal tumour (? fibroma) in a man aged seventy-two; Optic nerve atrophy in smokers; Artificial maturation of immature senile cataract by trituration, 1017—Artificial maturation of immature senile cataract by trituration, 1427

PATHOLOGICAL SOCIETY.—Pathology of duodenitis after burns; Intussusception of jejunum; Cardiac calculus; Ruptured spleen, 81—Cases of goitre; Suppurative peritonitis, 195—"Sabal intestinal"; Retro-peritoneal hernia; Ruptured spleen and kidney; myxofibroma of pelvis; Malformed fœtal generative organs; Infantile enlargement of spleen; Epithelioma of eyelid; Cancer of pancreas, 297—Compression myelitis with and without secondary degeneration; Cancer of omentum; Popliteal aneurysm with sarcoma; Embolic aneurysm of gluteal artery; Periostitis and atrophy of ancient Egyptian bones, 402—Mammary carcinoma in a cat; Prolapse into duodenum of wall of stomach of a horse; Chronic lateral invagination of colon with cancer; Diffuse vesical papilloma; Loose body from knee-joint; Necrosis and separation of articular cartilage, 543—Bronchial casts from bronchitis crouposa; Coccygeal tumours; Paget's disease of nipple; Half vertebra in rabbit; Imperforate rectum, 648—Cancer of œsophagus eroding trachea; Central quiet necrosis of radius; Lymphatic nævus of tongue; Macro-glossia; Tuberculosis in birds; Fracture dislocation of spine; Infantile splenic enlargement, 803—Perforating ulcer of duodenum; Spontaneous fracture of urinary calculi; Melanotic epitheliomata of great toe and labium; Fracture of patella; Sacculated aortic aneurysms; Calcareous cutaneous nodule, 854—Special general meeting; Persistent lingual duct; Uterine myoma becoming sarcomatous; Ulcerative endocarditis with aneurysm and with amyloid disease; Tubercular disease with multiple hepatic abscesses; Duct carcinoma of breast, 1015—Tubercular strictures of colon; Volvulus of small intestine; Osseous lesions in scurvy; Cancer of testis; Psorospermiæ; Spontaneous fracture of renal calculus; Cystic diseases of breast, with cancer, 1124—Granular kidney in young persons; Tuberculosis with aspergillus; Softening of left cuneus; Calcifying sarcoma of breast; Simple necrosis of vertebræ; Polypi of large intestine; Fibro-chondroma of tongue, 1178

ROYAL ACADEMY OF MEDICINE IN IRELAND.—Exhibition of specimens; Effects of the electric current when applied to the female pelvic organs, a few experiments, 21—Compound luxations of the ankle-joint; Battey's operation, 83—Extra-pleural abscess simulating empyema; Case of empyema treated by the radical method, 248 — Exhibits; Notes and remarks on a case of complete prolapse of the cervical zone of the uterus preceding labour at full term, 300—The American periglyph; Single unilateral sigmoid kidney; Two specimens of Meckel's diverticulum; Topographical anatomy of the abdomen; Abnormal right subclavian artery; New method of exhibiting topographical anatomy of the brain; Nerve-supply of the extensor brevis digitorum manus in man, 352—Exhibits; Case of injury to the liver; The pathology of empyema, 470—Angina pectoris in the heart palsy of acute specific infective disease; A remarkable case of intestinal obstruction, 549—The high operation for encysted calculus, 603—Exhibition of specimens; Cæsarean section; The medical selection of lives for assurance, 755—Rectal neoplasms; Erasion of the knee-joint; A series of 100 cataract extractions, 862—Exhibitions; Successful removal of a large fibro-cystic tumour; Three cases of rupture of the perineum, 970—Exhibits; The lantern as an aid to anatomical demonstrations; Collective investigation, 1020—Passive movement treatment of disease, 1244

ROYAL MEDICAL AND CHIRURGICAL SOCIETY.—Removal of upper extremity for osteochondroma; Mechanism of suspension in locomotor ataxy, 131, 242—Strangulated cæcal hernia, 242—Past and present treatment of rheumatism, 348—Symptomatology of total transverse lesions of spinal cord, 466—Annual meeting, 542—Analysis of 964 cases of operation for calculus in the bladder, 599—History of uric acid in the urine, 705—Operation for radical cure of non-strangulated hernia, 802—Comparison of salicine with salicylate of sodium, 902—The reflexes in cases of injury to the spinal cord, 1071—Senile hypertrophy and senile atrophy of the skull; The cure of leprosy, 1177—The chemistry of gout; Analysis of 400 cases of amputation, 1302

SHEFFIELD MEDICO-CHIRURGICAL SOCIETY.—Anthrax; Varicella gangrenosa; The proposed watercloset system for Sheffield; Lead-poisoning; Poisoning by Coal-gas; Specimens, 22—Retinal hæmorrhage; Hemiplegia; Unilateral ulceration of the neck; Salivary calculus; Carcinoma of the ascending colon; Influenza, 469—Diffuse symmetrical scleroderma; Graves' disease; Hypnotism, 549—Microscopic specimens; Excision of the ankle-joint and astragalus; Radical cure of hernia; Old hepatic abscess; Locomotor ataxy; Syphilitic growth; Aural complications of the late epidemic; History of the Medical Societies of Sheffield, 806

SOCIETY OF MEDICAL OFFICERS OF HEALTH.—Isolation of infectious disease in hospitals, 196—Public health of Italy in 1889, 602—Notification of infectious diseases; Epidemic influenza, 754—Hospital for infectious diseases, 969—Plumbism and water-supply; Photographic camera, 1242

SOCIETY OF MEDICAL SUPERINTENDENTS OF METROPOLITAN POOR-LAW INFIRMARIES.—Alternate hemiplegia; Alcoholic paralysis; Charcot's joint disease; Syphilitic ostitis; Gonorrhœal rheumatism, 470

WEST LONDON MEDICO-CHIRURGICAL SOCIETY. Treatment of strumous glands, 247—Cancer of the breast treated by electricity; Unconscious automatic actions in epileptic fits, 1126—The urticaria of infancy and childhood; Hay fever and paroxysmal sneezing; Heart hurry, 1242

Medical Society of London, annual meeting, 546, 613, 831, 1034; annual oration at the, 1001
——— students, the reverence of, 764

MEDICAL TRIALS.—Toogood *v.* Wilkes, 447, 732—Beach *v.* the Imperial Union Accident Assurance Company, 475—Martin *v.* Stubbs, 872, 875—"Dr. Sherman of Chancery-lane," 1269

Medicine, alcohol as a, 1306; for poor citizens at the cost of the State, 618

Medico-Chirurgical Society, the presidency of the, 484

Medico-Psychological Association, 59, 112, 679, 729, 883, 1047, 1212, 1402; examination, 1007

Midwifery at Liége, 1080

Midwives, and antiseptics, 379; and monthly nurses, the training of, 1144

Midwives' Registration Bill, the, 1131, 1149, 1204

Milan, typhoid at, 1435

Miles, Dr. A., on extensive burn of leg, treated by grafting with skin of dog, 594
——— Mr. C. H., case of acute intestinal obstruction from impacted gall-stone, in a patient aged seventy-seven, 1121

Milk, and railway rates, 616; epidemic at Forfar, 1190
——— epidemics, legislation and, 478
——— trade, infection and the, 716

Miller, Mr. A. G., case of Jacksonian epilepsy, supposed to be syphilitic, relieved by trephining, 1008
——— Mr. E. C., on labour following closely after congestion of the lungs, dyspnœa and dropsy, the result of heart disease, 461

Mills, Mr. J. A., a Handbook of Quantitative Analyses (review), 354

Milne, Mr. A., on double dislocation of the shoulders, 400

Milroy lectures, 531, 586, 635, 688, 865

Milson, Mr. R. H., the influenza epidemic, 105

Milton district, health report of, 985

"Mind blindness," 204

Mineral waters, the supply of, 1341

Miners, health and mortality statistics of, 1030

Mining and metallurgy, an international exhibition of, 523

MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

ANCOATS HOSPITAL.—Carcinoma uteri; supravaginal hysterectomy; recovery, 130

BELGRAVE HOSPITAL FOR CHILDREN.—Operation for deviated septum; remarks, 1425

BIRMINGHAM GENERAL HOSPITAL.—Peculiar case of strangulated inguinal hernia, 1015

BURTON-ON-TRENT INFIRMARY.—A case of compound comminuted fracture with wound of brain, followed by hernia cerebri; recovery, 801

CARLOW INFIRMARY.—Surgical cases, 465

CHARING-CROSS HOSPITAL.—A case of spontaneous fracture of the leg in a patient suffering from locomotor ataxy; recovery, 1300

COLONIAL HOSPITAL, GIBRALTAR.—A case of diaphragmatic hernia, 1301
CUMBERLAND INFIRMARY. — Compound depressed fracture of the skull, with fracture of the base and facial paralysis, 21—A case of abscess of the lung; operation; death; necropsy, 964
DERBYSHIRE GENERAL INFIRMARY.—Goitre in a boy, causing softening of tracheal cartilages; tracheotomy; death, 598
DUNDEE ROYAL INFIRMARY.—A case of spinal myelitis; death; remarks, 702
EYE AND EAR HOSPITAL, BALTIMORE, U.S.A.—Treatment after cataract operations, 1241
GENERAL LYING-IN HOSPITAL, YORK-ROAD, LAMBETH.—Cæsarean section in a case of flattened generally contracted pelvis; death in sixty hours; necropsy; remarks, 19
GREAT NORTHERN HOSPITAL.—Strangulated hernia in a woman aged eighty; herniotomy necessitating abdominal section; recovery, 401
HONG-KONG GOVERNMENT CIVIL HOSPITAL.—A case of abscess of the liver, with complications; recovery; remarks, 1176
HULL ROYAL INFIRMARY.—Two cases of suprapubic lithotomy, 853—Surgical emphysema without wound of lung, 992
KENSINGTON INFIRMARY.—A case of Cæsarean section; death; remarks, 646
KING'S COLLEGE HOSPITAL.—A case of thrombosis of the cerebral sinuses following otorrhœa; remarks, 129
LAMBETH INFIRMARY. — Rupture of hernial coverings, with protrusion of intestines; recovery, 401—Puerperal eclampsia, followed by puerperal mania; recovery, 1122
LANCASTER COUNTY ASYLUM.—A case of hæmorrhage into the supra-renal capsule of both sides; remarks, 750
LEPER ASYLUM, TRINIDAD. — Leprosy and elephantiasis Arabum in the same patient; amputation of thigh; death from pyæmia; necropsy; remarks, 194
LIVERPOOL NORTHERN HOSPITAL.—Case in which lithotomy was performed on the same man twice within twelve months; remarks, 597—A case of hæmorrhage into the pons Varolii; necropsy, 751
LONDON HOSPITAL.—An unusual case of extravaginal hæmatocele, 597—Acute intestinal obstruction, probably due to embolism of several terminal branches of the superior mesenteric artery; remarks, 646—Case of tetany in pregnancy, with nephritis and cancer of the pylorus; remarks, 749—Cases of operation for disease of the hip-joint in which the upper epiphysis was separated; remarks, 900—Popliteal aneurysm; digital compression for 184 hours; cure, 963—unilocular abdominal cyst of large size, apparently ovarian; laparotomy; cure, 1121
LONDON TEMPERANCE HOSPITAL. — Case of acute phthisis, terminating with rapid gangrene of face and cerebral abscess, 79
MANCHESTER CLINICAL HOSPITAL FOR WOMEN AND CHILDREN.—Lithotrity in a child, 347
MANCHESTER ROYAL INFIRMARY.—Perforation of the vermiform appendix; suppurative peritonitis; death; necropsy, 465
MIDDLESEX HOSPITAL.—A case of subdural (arachnoid) hæmorrhage pressing on the left motor area, associated with concussion of the brain; remarks, 541
NORTH-EASTERN HOSPITAL FOR CHILDREN.—A case of chorea treated by arsenic followed by paralysis and pigmentation of the skin, 1300
RADCLIFFE INFIRMARY, OXFORD.—Three cases of abdominal section; remarks, 1014
ROYAL FREE HOSPITAL.—Acute rheumatism associated with pneumonia and hyperpyrexia; baths; recovery, 1174
ROYAL PORTSMOUTH HOSPITAL.—A case of intestinal obstruction; right lumbar colotomy; recovery, 80
ROYAL SOUTHERN HOSPITAL, LIVERPOOL.—Carcinoma of the pylorus; pylorectomy; recovery, 800
ROYAL SURREY COUNTY HOSPITAL, GUILDFORD.—Suppression of urine for thirteen days; single kidney; occlusion of ureter by inspissated thrombus, 79
ST. BARTHOLOMEW'S HOSPITAL.—Strangulated femoral hernia; gangrene of the gut and extravasation of fæces into the peritoneum; herniotomy; subsequent abdominal section; flushing of the peritoneal cavity; death from pneumonia; no peritonitis; remarks, 1240
ST. MARY'S HOSPITAL.—A case of hydrophobia; death; necropsy; remarks, 295
ST. PANCRAS AND NORTHERN DISPENSARY.—Case of puerperal pyrexia, associated with mitral regurgitation, acute mania, and cellulitis; recovery, 346
ST. THOMAS'S HOSPITAL.—Two cases of excision of bursæ in the neighbourhood of large joints; with remarks, 241—Surgical cases of interest, 701—Cases of aneurysm of the lower extremities, 852—A case of Porro-Cæsarean section in a rachitic dwarf; successful result both to mother and child; remarks, 1068—Inversion of the uterus due to a large polypus; superficial necrosis of both uterus and tumour; sudden extrusion of the entire mass through the vulva; removal of tumour, with subsequent reduction of the inversion; remarks, 1355
SEAMEN'S HOSPITAL, GREENWICH. — Ventral hernia; operation; recovery, 1013—Fibroma of the umbilicus; operation; cure, ib.
SOUTH DEVON AND EAST CORNWALL HOSPITAL, PLYMOUTH.—A case of scrofulous kidney; nephrotomy followed by nephrectomy; recovery, 1070—Two cases of tubercular disease of the urinary and of the genito-urinary tracts, 1123—Case of acute ovaritis, followed by suppurative peritonitis; death, 1357—Vesical calculus; supra-pubic lithotomy; cure, 1426
SUSSEX COUNTY HOSPITAL.—A case of intestinal obstruction; recovery without operation, 296—Surgical cases, 541
TORBAY HOSPITAL.—A case of fracture of the coronoid process of the ulna, 242—A case of "causalgia"; remarks, 647
UNIVERSITY COLLEGE HOSPITAL.—Three cases of ununited fracture successfully treated by operation; remarks, 464 — Case of bullet wound of the abdominal aorta, in which the bullet remained within the lumen of that vessel, 800
VICTORIA HOSPITAL FOR CHILDREN, CHELSEA. A case of acute nephritis and uræmic convulsions; complete recovery; remarks, 193
